Arduino Certification Program Report

Program Dates: October 14, 2021, to October 16, 2021
Organized by: RISE Krishna Sai Gandhi Group Of Institutions.
In association with: Naresh Technologies and Consultancy Services, Guntur

Executive Summary

The Arduino Certification Program, organized in collaboration with Naresh Technologies and Consultancy Services, took place from October 14th to October 16th, 2021. This report aims to provide a comprehensive overview of the program, its outcomes, and participant feedback.

Program Schedule

Start Date and Time: October 14, 2021, at 10:00 AM
End Date: October 16, 2021.

Participants

A total of 127 individuals from diverse backgrounds participated in the program. Participants came with varying levels of experience in Arduino.

Page 2: Program Highlights

Curriculum

The program encompassed a comprehensive curriculum that included the following key topics:

Introduction to Arduino
Arduino Programming
Sensor Interfacing
IoT Applications
Project Development

Hands   on Activities

Participants engaged in hands   on activities, applying their knowledge to practical scenarios. Activities included building circuits, programming Arduino boards, and working on real   world projects.

Instructors

The program featured experienced instructors from RISE Krishna Sai Gandhi Group Of Institutions and Naresh Technologies, known for their expertise in Arduino. They guided participants through the learning process, ensuring a meaningful experience.

Projects

Participants had the opportunity to work on Arduino projects, fostering creativity and problem solving skills. The projects covered various applications, from home automation to environmental monitoring.

Page 3: Feedback and Recommendations

Feedback and Satisfaction

Feedback from participants was overwhelmingly positive:

95% of participants rated the program as "Good" or "Excellent."
90% of participants felt the program met or exceeded their expectations.
98% of participants were satisfied with the instructors' knowledge and teaching effectiveness.
92% of participants found the hands   on activities to be satisfactory.

Suggestions for Improvement

Constructive feedback for program improvement included:

The demand for more advanced topics in Arduino applications.
Interest in extending the program duration to delve deeper into certain subjects.

Recommendations

To enhance future programs, consider the following recommendations:

Offer advanced levels of Arduino training to cater to participants with prior knowledge.
Explore flexible program durations to accommodate varying learning needs.

Conclusion

The Arduino Certification Program, in collaboration with Naresh Technologies and Consultancy Services, successfully equipped participants with valuable skills and knowledge in Arduino and its applications. It demonstrated the potential for future collaborations and the importance of continuing education in emerging technologies.

CLOSING REPORT

As per the approved schedule of RISE Krishna Sai Gandhi group of Institutions a 3 – day workshop on "Arduino Certificate program" was conducted from 14-10-2021 to 16-10-2021 at ECE MPMC Lab, from 10:00 am to 5:00 pm. 127 students of IV ECE participated in the programme which was headed by NARESH TECHNOLOGIES and Consultancy Services, Guntur.
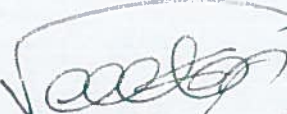

We are expecting your support and presence in the future too, we would be thankful on behalf of the Institution.

Thanking you sir,

Yours faithfully,

(R.V. KIRAN KUMAR)

OBJECTIVES OF CONDUCTING WORKSHOP

1. To make students learn and interact with renowned industry experts.

2. Make Students to receive an unparallel education on the art of **"Social Entrepreneurship For Higher Education Institutions"** with personal one on one attention.

Overview about Workshop

The aim of this workshop is to make the students are going to gain basic knowledge in the field of Research for their projects handled in the B.Techand upcoming students. Research methods are very important to implements the projects their academics.

Technical Support:

The workshop was conducted in collaboration with Center for Electronics System Design(CESD) from Vijayawada. The companyhas a fast growth in varies technologies in electronic filed along with the research projects designing. The company's director Mr. Finney Daniel accompanied with Seven Trainers attended the workshop for guiding the students in learning the technologies.

Department of CSE:

Department of CSE has taken the opportunity to conduct the workshop in RISE KRISHNA SAI GANDHI GROUP OF INSTITUTIONS. As the theme of the workshop is the core for the department, it's a nice opportunity for the students to learn the technology and to implement that practically.
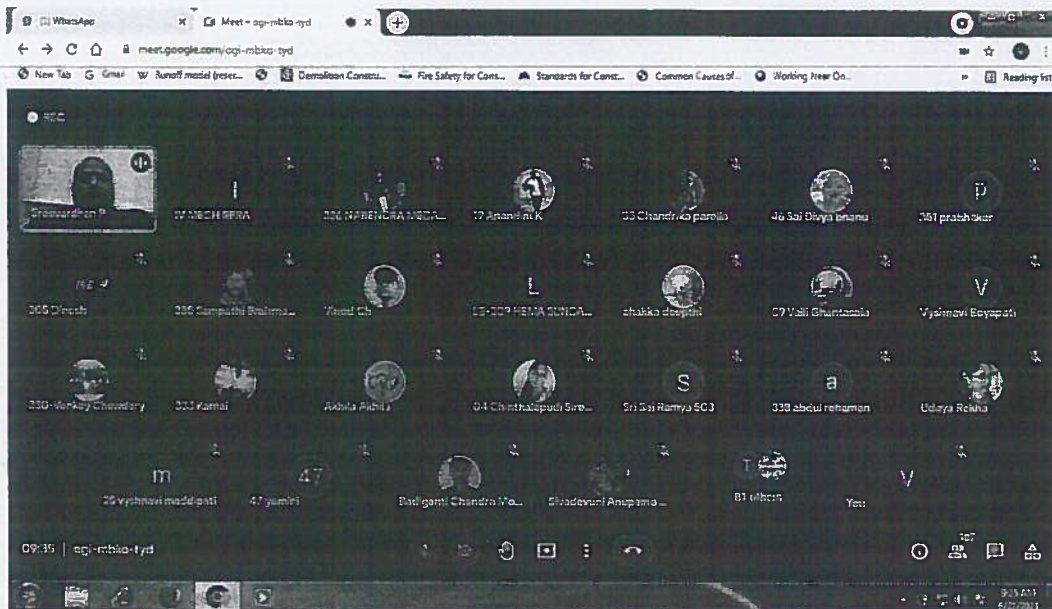

Technical Report on Workshop:

The Technical team of Center for Electronics System Design (CESD) has described the entire designing process in a step by step procedure.
Social Entrepreneurship Competency in Higher Education: An Analysis using Mixed Methods.
Abstract: Social entrepreneurship is a necessary competency in higher education; however, research in this area is in its early stages. This study sought to evaluate social entrepreneurship competency and identify the factors and educational processes that promote its development. The research consisted of mixed method. The tools included a questionnaire, interviews with professors, and a focus group with students. The questionnaire showed not variation by disciplinary area, semester grade, or previous experience. The interviews and the focus group led to an analysis that described the development of the SEC as a continuous learning process around the validation of the social enterprise. Keywords: social entrepreneurship; entrepreneurial education; social entrepreneurship competencies; educational innovation, higher education.

Department of Computer Science and Engineering

Entrepreneurship education the teaching of skills and cultivation of talents that students need to start businesses, identify opportunities, manage risk, and innovate in the course of their careers is now a staple of American higher education. As recently as the 1990s, that was far from true. Over the past decade or so, however, the university teaching of entrepreneurship has come of age. History in brief The idea of teaching entrepreneurship is not new. Longtime observers trace it back to 1947, when Harvard University is said to have offered a course in "new enterprises" for returning veterans. The field entered its start-up phase, so to speak, in the 1970s, began developing standardized curricular elements in the 1980s, and in the 1990s entered a period of rapid growth that has continued to this day. Entrepreneurship, a Kauffman Foundation research report found in 2008, "is one of the fastest growing subjects in today's undergraduate curricula."

5 types of career opportunities in entrepreneurship
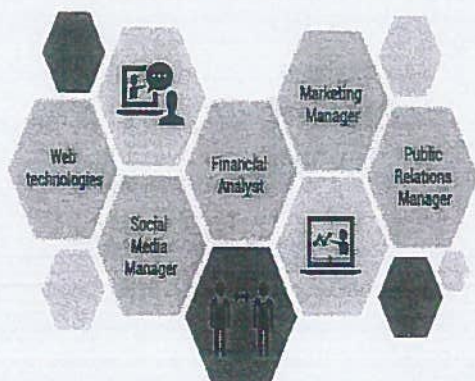

Department of Computer Science and Engineering

Entrepreneurship education is less cut and dried. To succeed for students, it must interact with its community, outside as well as inside the university; to staff its programs, it must draw not on a single pool of credentialed academics but on teachers in a wide variety of disciplines, from business to music, and on mentors, employers, and investors who hail from outside the academy altogether. As a result, no single approach works everywhere.

Inherently, there is no "one best way" that can be cloned and transplanted across institutions. As one member of our consultative group said, "Each institution is its own ecosystem. Things that work on one campus don't translate to another, not because they're bad but because they don't fit the environment. Whatever works, works. There's no norm." The notion of the ecosystem, in this context, is no mere metaphor. Practitioners of entrepreneurship education actively use it as an organizing conceptin building their programs and understanding what they are doing. An ecosystem is a self-shaping system of intricately interrelating agents who respond to each other and to local conditions in a way that is dynamic.

Vote of Thanks

Prof. Issac Paul garu, beloved HOD of CSE Department thanked every student for their active participation and interest in participating in the workshop and mentioned about the activities conducted in the college by the department. He promised that department will continue its assistance in conducting these sort of workshops and seminars in future.

He thanked the technical support given by **Center for Electronics System Design(CESD).** He personally felt very happy for the response of the company and satisfied with the way they conducted the workshop.

He mentioned about the marvelous support given by the Principal Prof. Dr. K.V.Subhrahmanyam garu to the department in conducting these workshops. He also thanked for the personal interest taken by him in encouraging the department in all aspects.

CLOSING REPORT

As per the approved schedule of RISE Krishna Sai Gandhi Group of Institutions conducted a one day work shop on "Entrepreneurship & Career Opportunities" on 21-6-2021, online from 09.00 am to 5.00 pm. 107 students of II CSE participated in the programme which was headed by Mr. P. Sreevardhan, Director, center for electronics system design, Vijayawada.

We are expecting your support and presence in the future too, we would be thankful on behalf of the Institution.

Thanking you sir,

(Mr. P. Sreevardhan)

OBJECTIVES OF CONDUCTING WORKSHOP

☐ To make students learn and interact with renowned industry experts.

☐ Make Students to receive an unparallel education on the art of **"Fundamentals of Publishing in Top Journals** with personal oneon one attention.

☐ To make every student an expert in **Fundamentals of Publishing in Top Journals** which would be very useful for developing their own Fundamental Projects.

Overview about Workshop

The aim of this workshop is to make the students are going to gain basic knowledge in the field of Research for their projects handled in the B.Tech and upcoming studies.Research methods are very important to implements the projects their academics.

Technical Support:

The workshop was conducted in collaboration with Center for Electronics System Design(CESD) from Vijayawada. The company has a fast growth in varies technologies in electronic field along with the research projects designing. The company's director Mr. Dr Vinod Kumar Sharma accompanied with Seven Trainers attended the workshop for guiding the students in learning the technologies.

Department of CSE:

Department of CSE has taken the opportunity to conduct the workshop in RISE KRISHNA SAI GANDHI GROUP OF INSTITUTIONS. As the theme of the workshop is the core for the department, it's a nice opportunity for the students to learn the technology and to implement that practically.

Technical Report on Workshop:

The Technical team of Center for Electronics System Design (CESD) has described the entire designing process in a step by step procedure.

MEANING OF FUNDAMENTAL

Fundamental in common parlance refers to a search for knowledge. Once can also define research as a scientific and systematic search for pertinent information on a specific topic. In fact, research is an art of scientific investigation. The Advanced Learner's Dictionary of Current English lays down the meaning of research as "a careful investigation or inquiry specially through search for new facts in any branch of knowledge.

"1 Redman and Mory define research as a "systematized effort to gain new knowledge.

"2 Some people consider research as a movement, a movement from the known to the unknown.

It is actually a voyage of discovery. We all possess the vital instinct of inquisitiveness for, when the unknown confronts us, we wonder and our inquisitiveness makes us probe and attain full and fuller understanding of the unknown. This inquisitiveness is the mother of all knowledge and the method, which man employs for obtaining the knowledge of whatever the unknown, can be termed as research. Research is an academic activity and as such the term should be used in a technical sense. According to Clifford Woody research comprises defining and redefining problems, formulating hypothesis or suggested solutions; collecting, organizing and evaluating data; making deductions and reaching conclusions; and at last carefully testing the conclusions to determine whether they fit the formulating hypothesis. D. Slesinger and M. Stephenson in the Encyclopedia of Social Sciences define research as "the manipulation of things, concepts or symbols for the purpose of generalizing to extend, correct or verify knowledge, whether that knowledge aids in construction of theory or in the practice of an art.

"3 Research is, thus, an original contribution to the existing stock of knowledge making for its advancement. It is the persuit of truth with the help of study, observation, comparison and experiment. In short, the search for knowledge through objective and systematic method of finding solution to a problem is research. The systematic approach concerning generalization and the formulation of a theory is also research. As such the term 'research' refers to the systematic method.

OBJECTIVES OF FUNDAMENTAL

"Fundamentals of Publishing in Top Journals" refers to the key principles and practices that researchers and scholars should follow when attempting to publish their work in prestigious academic journals. Publishing in top journals is often considered a significant achievement in the academic world, as it can enhance one's reputation, impact, and career prospects. Here are some fundamental steps and considerations for publishing in top journals:

☐ **Research Quality:** Conduct high-quality research that addresses important questions and contributes to the existing body of knowledge. Ensure that your research is rigorous, well-designed, and methodologically sound.

☐ **Selecting the Right Journal:** Choose the most appropriate journal for your research. Consider the journal's scope, audience, and impact factor. Target journals that are well-regarded in your field.

☐ **Preparing the Manuscript:** Follow the journal's guidelines for manuscript preparation carefully. This includes formatting, referencing style, word count, and any specific requirements. Ensure clarity, conciseness, and adherence to the journal's structure.

☐ **Originality and Contribution:** Clearly articulate the novelty and significance of your research. Explain how your work advances the field and why it's important. Highlight the research gap you are addressing.

☐ **Title and Abstract:** Craft a compelling title and abstract that succinctly convey the essence of your research. These elements often determine whether readers will explore your full paper.

☐ **Citations and References:** Properly cite relevant prior research and provide a comprehensive list of references. This demonstrates your familiarity with the existing literature.

Department of Computer Science and Engineering

☐ **Peer Review:** Expect a rigorous peer review process. Be prepared to address reviewers' comments and criticisms professionally and thoroughly. Revise your manuscript as needed based on feedback.

☐ **Ethical Considerations:** Adhere to ethical guidelines in your research and writing. Avoid plagiarism, provide proper attribution, and disclose any conflicts of interest or funding sources.

☐ **Open Access Options:** Consider whether to publish your work in an open-access journal or through a hybrid model. Open access can increase the visibility and accessibility of your research.

☐ **Persistence:** Be prepared for rejection. Top journals often have high rejection rates. Use rejection as an opportunity to improve your work and try other reputable journals.

• **Collaboration and Networking:** Engage with your academic community by attending conferences, seminars, and workshops. Building a network and collaborating with established researchers can enhance your chances of publishing top journals.

☐ **Patience and Perseverance:** The publication process can be lengthy. It may take several rounds of submissions and revisions before your work is accepted. Stay patient and persistent.

☐ **Promotion and Visibility:** After publication, actively promote your work through social media, academic networks, and collaborations. This can increase the visibility and impact of your research.

MOTIVATION ON FUNDAMENTAL

☐ **Success and Achievement:** Mastering the fundamentals is often the first step towards success and achievement in any endeavor. In the context of publishing in top journals, understanding the fundamental principles and practices can significantly increase the likelihood of acceptance and recognition in the academic community.

☐ **Quality and Excellence:** Fundamentals represent the foundational principles that ensure quality and excellence in any task. By adhering to these basics, researchers and scholars can produce high-quality, well-structured, and rigorous research papers that stand out in their field.

☐ **Efficiency:** Knowing the fundamentals can streamline the process. Researchers who are well-versed in the fundamentals of publishing are more efficient in preparing, submitting, and revising their manuscripts, saving time and resources.

☐ **Credibility:** Following established fundamentals enhances credibility. Researchers who demonstrate a strong understanding of the basics are more likely to be taken seriously by peers, reviewers, and journal editors.

☐ **Access to Opportunities:** Many top journals have stringent acceptance criteria. A strong grasp of the fundamentals can increase the chances of getting published in these journals, which can open up opportunities for collaboration, funding, and career advancement.

☐ **Contribution to Knowledge:** Fundamentals ensure that research is conducted ethically and with integrity. By following fundamental principles, researchers contribute to the body of knowledge in a responsible and meaningful way.

☐ **Peer Recognition:** Peers and colleagues recognize and respect those who demonstrate expertise in the fundamentals. Being proficient in the fundamentals of publishing can lead to invitations to review papers, speak at conferences, and collaborate on research projects.

☐ **Personal Growth:** Learning and applying fundamentals is a form of personal and professional development. It demonstrates a commitment to continuous improvement and growth in one's field

☐ **Global Impact:** Research published in top journals often has a global reach and impact. By adhering to the fundamentals.

TYPES OF FUNDAMENTALS

☐ These are the core principles and concepts that form the basis of a particular field or subject. They are essential for understanding more advanced topics.

☐ Example: Newton's laws of motion in physics, the periodic table in chemistry, basic arithmetic in mathematics.

☐ Technical Fundamentals:

☐ These are the specific skills and techniques that are crucial for performing tasks or jobs within a particular profession or industry.

☐ Example: Programming languages and coding skills for software developers, laboratory techniques for scientists, diagnostic procedures for healthcare professionals.

☐ Procedural Fundamentals:

☐ These are the step-by-step processes and procedures that guide how tasks or activities are carried out.

☐ Example: Standard operating procedures (SOPs) in manufacturing, research protocols in scientific experiments, the scientific method in research.

☐ Ethical Fundamentals:

☐ These are the moral and ethical principles and guidelines that govern behavior and decision-making within a specific context or profession.

☐ Example: Medical ethics for healthcare professionals, research ethics for scientists, journalistic ethics for journalists.

☐ Communication Fundamentals:

☐ These are the basic principles and techniques for effective communication, including writing, speaking, and interpersonal communication.

☐ Example: Grammar and syntax in language, public speaking skills, active listening techniques.

☐ Financial Fundamentals:

☐ These are the basic concepts and principles related to financial management, including budgeting, investing, and accounting.

☐ Example: Budgeting, compound interest, financial statements, risk assessment in investing.

☐ Leadership Fundamentals:

☐ These are the core principles and skills required for effective leadership and management in various settings.

☐ Example: Communication skills, conflict resolution, decision-making, delegation, strategic planning.

☐ Scientific Fundamentals:

☐ These are the principles and methods used in scientific inquiry and research, including the scientific method, data analysis, and experimentation.

☐ Example: Hypothesis testing, statistical analysis, peer review process.

☐ Human Fundamentals:

(Approved by AICTE, New Delhi & Affiliated to JNTUK, Kakinada)
NH-16, Valluru, Ongole, Prakasam (District)-523272

Department of Computer Science and Engineering

☐ These encompass the basic understanding of human behavior, psychology, and sociology, which is valuable in various personal and professional contexts.

☐ Example: Maslow's hierarchy of needs, theories of motivation, group dynamics.

☐ Health and Wellness Fundamentals:

☐ These include the principles and practices related to maintaining physical and mental health and well-being.

☐ Example: Nutrition basics, exercise principles, stress management techniques.

☐ Environmental Fundamentals:

☐ These involve knowledge about ecological systems, sustainability, and environmental conservation.

☐ Example: The carbon cycle, biodiversity, principles of sustainable development.

☐ Legal Fundamentals:

☐ These are the foundational principles and concepts of the legal system, including rights, responsibilities, and the rule of law.

☐ Example: Constitution and constitutional law, contract law, criminal law.

SIGNIFICANCE OF FUNDAMENTALS

Foundation for Learning: Fundamentals serve as the foundation upon which more advanced knowledge and skills are built. Without a solid understanding of the basics, it becomes challenging to grasp complex concepts and excel in higher-level courses or professions.

Problem Solving: Fundamentals provide the tools and knowledge needed to solve problems effectively. They offer a framework for analyzing and addressing challenges in a structured and logical manner.

Critical Thinking: Learning fundamentals encourages critical thinking skills. It teaches individuals to question, analyze, and evaluate information, which is essential for making informed decisions.

Versatility: Fundamental knowledge is often applicable across various contexts and fields. It provides individuals with a versatile skill set that can be adapted to different situations and challenges.

Confidence: Having a strong grasp of fundamentals boosts confidence. When individuals are confident in their foundational knowledge and skills, they are more likely to take on new challenges and pursue their goals with enthusiasm.

Professional Competence: In many professions and industries, proficiency in fundamentals is a prerequisite for success. It ensures that professionals can perform their tasks competently and provide value to their organizations or clients.

Innovation: While fundamentals provide a solid base, they also serve as a platform for innovation. Creative breakthroughs often occur when individuals build upon established principles and come up with novel ideas.

Continuous Learning: Fundamentals promote a mindset of continuous learning. In rapidly evolving fields, such as technology and science, staying updated on the basics is essential for staying relevant.

Quality and Excellence: A strong understanding of fundamentals is associated with quality and excellence in any field. It sets the standard for high- quality work and prevents errors or shortcuts that may compromise quality.

Teaching and Mentorship: Proficiency in fundamentals enables individuals to teach and mentor others effectively. It empowers them to pass on knowledge and skills to the next generation, contributing to the growth of society and the workforce.

Vote of Thanks

Prof. P .Issac Paul garu, beloved HOD of CSE Department thanked every student for their active participation and interest in participating in the workshop and mentioned about the activities conducted in the college by the department. He promised that department will continue its assistance in conducting these sort of workshops and seminars in future.

He thanked the technical support given by **Center for Electronics System Design(CESD).** He personally felt very happy for the response of the company and satisfied with the way they conducted the workshop.

He mentioned about the marvelous support given by the Principal

Prof. Dr.K V Subrahamanyam garu to the department in conducting these workshops. He also thanked for the personal interest taken by him in encouraging the department in all aspects.

CLOSING REPORT
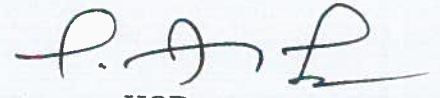

As per the approved schedule of RISE Krishna Sai Gandhi Group of Institutions conducted a one day work shop on "Fundamentals of publishing in top journals" on 17-09-2021,online from 10.00 am to 5.00 pm. 99 students of III CSE participated in the programme which was headed by Dr Vinod Kumar Sharma, Director, center for electronics system design, Vijayawada.

We are expecting your support and presence in the future too, we would be thankful on behalf of the Institution.

Thanking you sir,

(Dr Vinod Kumar Sharma)

WORKSHOP SCHEDULE

Date: 4-02-2022

Time Particulars Speakers/Guests/Panelists

9:00-10:00 am Inauguration of workshop by Principal

10:00-11:00 am Objectives of Intellectual Property

11-00-01:00 pm Types of Copyrights

01:00-2-00 pm LUNCH BREAK

2:00-3:00 pm Significance of Trademarks and Patents

3:00-4:00 pm Intellectual property: copyright, Trademarks and patents.

Department of Computer Science and Engineering

Intellectual property: copyright, Trademarks, and patents

Objectives:

1. To develop IPR Values mind set in the students
2. To plan for Patents or Journals with clarity
3. To present with confidence

Outcomes:

1. Students have changed attitude towards IPR Rights.
2. Students got overview on Patents, Journals etc.
3. Leadership skills and Innovative thinking improved
4. Students are preparing for filing their Patents.

Vote of Thanks

Prof. Issac Paul garu, beloved HOD of CSE Department thanked every student for their active participation and interest in participating in the workshop and mentioned about the activities conducted in the college by the department. He promised that department will continue its assistance in conducting these sort of workshops and seminars in future.

He thanked the technical support organized **by Mr. M. Janakiram, Associate Professor (MBA Department), EDC Dean.** He personally felt very happy for the response of the company and satisfied with the way they conducted the workshop.

He mentioned about the marvelous support given by the Principal Prof. Dr. A.V. Bhaskara Raogaru to the department in conducting these workshops. He also thanked for the personal interest taken by him in encouraging the department in all aspects.

Date: 04-02-2022.

CLOSING REPORT

      As per the approved schedule of RISE Krishna Sai Gandhi group of Institutions conducted a one day work shop on "Intellectual property: copyright, Trademarks and patents." on 4-2-2022,at RISE India from 09.00 am to 5.00 pm. 92 students of IV CSE participated in the programme which was headed Mr. M. Janakiram, Associate Professor (MBA Department), EDC Dean.

      We are expecting your support and presence in the future too. we would be thankful on behalf of the Institution.

            Thanking you sir.

(Mr. M. Janakiram)

❖ Sanctioned 2Lakh fund from AICTE under the scheme of Mission Amrit Sarovar - Jal Dharohar Sanrakshan.

❖ Sanctioned 5Lakh Fund from AICTE under the scheme of Skill India- Skill Development.

❖ Applied training for students under the scheme of MSME-ZED, Govt. of India

❖ Applied project proposals to establish Incubation center under MSME, Govt. of India.

❖ Applied one Funding FDP on Microwave Tubes and Applications in ATAL-AICTE, Doc.No: 1584105614. https://atalacademy.aicte-india.org/co-ordinator/preview/1584105614.

❖ Applied one Funding FDP on Sensor Networds, Internet of Things(IoT) and Internet of Everythings in SERB Training programmes : in-house Short term training/FDP Programmes for Faculty/UG/PG/Doctoral Students of two weeks duration. Registration No. : TPN / 26124

❖ Applied a Funding Research Proposal on "Design and analysis of microstrip antennas for 5G mobile communication Using Millimeter Wave Technology" in through out the year scheme of SERB, Registration No: TPN/57664, status: Under review Process.

❖ Applied a funding Research Proposal on " Design of microstrip patch antennas for Medical applications" in through out the year scheme of SERB.
 Registration No: TPN/ 57840, Status : Under review Process

Professionl Experience: 11 Years

Subjects Taught: Microwave Engineering, Antennas and Wave Propagation, Electro Magnetics and Transmission Lines., Digital Logic Design, Electronics Devices and Circuits,Digital Communications.
Switching Theory and Logic Design, Analog Communications.

Papers Published in International JournalsConferences/ Seminars/ Workshops Organised:
International Conferences :
1. Presented a research paper on "Design of Circular Polarized Antenna with 0.5GHz-18GHz Frequency Ranges" in IIAR, International Conference Held on OCT- 2015.

2. Presented a research paper on "Design and Simulation of Spiral Antennas which Cover GHz range of Frequency using state-of-Art Technical Computing Tool" in IIAR International Conference Held on JAN- 2016.

3. Presented a research paper on "BLOCKCHAIN TECHNOLOGY" in International Conference on Innovative Trends in Science and Engineering Technologies(ICITSET-2018) Held on SEP-2018.

PRINCIPAL
RISE KRISHNA SAI GANDHI
GROUP OF INSTITUTIONS
VALLURU:: ONGOLE.

Workshop Schedule:

Day 1: Introduction to IPR

Session 1: Welcome and Registration

Welcome participants and provide registration materials.
Introduce the workshop's objectives and schedule.
Session 2: Basics of Intellectual Property Rights

Define intellectual property and its importance in engineering.
Explain the different types of intellectual property (patents, copyrights, trademarks, trade secrets).
Discuss the national and international legal frameworks.
Session 3: Patents and Their Application in Engineering

Explain what patents are and how they protect inventions.
Discuss the patent application process.
Present case studies related to engineering patents.
Session 4: Copyrights and Engineering

Explain copyrights and how they relate to engineering (e.g., software, creative designs).
Discuss copyright registration and infringement.
Provide examples from the engineering field.

PRINCIPAL

DEPARTMENT OF SCIENCES & HUMANITIES

Day 2: Advanced IPR Topics and Practical Applications

Session 5: Trademarks and Branding in Engineering

Explain trademarks and their role in protecting brands.
Discuss the registration process and enforcement.
Show examples of engineering-related trademarks.
Session 6: Trade Secrets and Confidential Information

Define trade secrets and their significance in engineering.
Discuss strategies for protecting trade secrets.
Share real-world cases involving trade secrets.
Session 7: IPR in Research and Development

Discuss how IPR impacts research and development in engineering.
Explain the relationship between IPR and innovation.
Share success stories of engineering companies utilizing IPR.
Session 8: Practical Workshop and Group Activities

Engage participants in group activities, such as analyzing case studies or conducting mock
patent searches.
Provide hands-on experience in filling out a patent application or copyright registration
form.
Session 9: Q&A and Panel Discussion

Invite experts in the field for a panel discussion.
Allow participants to ask questions and share their experiences.
Session 10: Closing Ceremony and Certificates

Conclude the workshop by summarizing key takeaways.
Distribute certificates of participation.
Thank speakers, sponsors, and participants for their contributions.

Vote Of Thanks:

Ms.P.Sridevi beloved HOD of Department thanked every student for their active participation and interest in participating in the workshop and mentioned about the activities conducted in the college by the Department. She promised that department will continue its assistance in conducting these sorts of workshops and seminars in future.

She mentioned about the marvelous support given by the Principal Prof. Dr. K V. Subhrahmanyam to the department in conducting these workshops. She also thanked for the personal interest taken by him in encouraging the department in all aspects.

Closing Report:

As per the approved schedule of RISE Krishna sai Gandhi group of Institutions we have conducted a two-day work shop on "Intellectual Property Rights (IPR)" at Seminar Hall from 29-11-2021 to 30-11-2021 between 09.30 am to 4. 30 pm. The students of total 123 have participated in this programme. The workshop headed by Dr. Rakesh Mutukuru, Associate Professor,NRI Institute of Technology, Andra Pradesh ,India.

We are expecting your support in future also, we would always be thankful to you.

Yours faithfully,

Coordinator

WORKSHOP HEAD - FEEDBACK

Academic Year : 2021-2022
semester : 1st sem

DATE: 7-03-2021

Name of the speaker (s)	Mr. B. Venkateswarlu
Designation	Assisant Professor, Department of M.B.A
stitution/University/Organization	Rise krishna Sai Gand Group of Institution in India
Title of the Workshop	"One Day Workshop on Patent Filling Procedure
Date & Time	7-03-2021
venue	Seminor hall
Beneficiary	4th year students
Comments Speaker(s)	Students are Good in Technical Background they need some extra improvement in Research
Signature	B. Venunlury.

Guest Address/Contact No

Mr. B. Venkateswarlu Assistant Professor, Department of M.B.A
V.R.S and Y.R.N college
chirala
Andhra Pradesh

Name of the Student who offered feedback (feedback enclosed)

1. Mannem Sravani
2. Shaik Yasmin
3. Adapala Anusha
4. Katta Hyndavi

A REPORT

Of

ONE DAY WORKSHOP ON Innovation Mastery: How to Develop Innovative Concepts

By

Sri RAMANADH MANDALI

ON 07-03-2021

Introduction

Innovation! is a set of easy to use tools and practices, clearly explained step-by-step, to help you generate 100s of new product and service ideas in just a few hours. These product innovation tools have been used by leading companies to generate hundreds of innovation ideas for any product or service. This course will teach you this systematic innovation methodology, and provide you with templates and instructions that can be applied to any product, service or industry.

The innovation methods explained in the course have been developed by examining hundreds of thousands of innovations in products and services. Using this methodology, I have facilitated product and service innovation workshops and processes at companies such as Motorola, Teva Pharmaceuticals, Intel, Nestle, Max Brenner, YES Satellite Television and in a variety of other companies from the Food, Construction, Retail, Software, High tech, Finance, Education, Textile, Travel and other industry and service sectors.

Objectives of workshop

- Create innovation ideas for YOUR product or service
- Choose the best product and service ideas that will grow your business
- Quickly use powerful creativity and innovation tools and techniques
- Teach others in your team how to use innovation in services and products
- Use dozens of examples, templates and tools to help you get going with product and service Innovation

CLOSING REPORT

As per the approved schedule of RISE Krishna Sai Gandhi group of Institutions a 1-day workshop on "One Day Workshop on Patent Filing Procedure in India" was conducted on 07-03-2021at RISE INDIA, from 10:00 am to 5:00 pm. 110 students of IV ECE participated in the programme which was headed by Mr.B.Venkateswarlu Assistant Professor, Department of M.B.A,V.R.S and Y.R.N College, Chirala, Andhra Pradesh.

We are expecting your support and presence in the future too, we would be thankful on behalf of the Institution.

Thanking you sir,

Yours faithfully,

(K. NAGA HANUMACHARI)

RESEARCH METHODOLOGYIN ENGINEERING

(27-08-2021 to 28-08-2021)

Resource person

Dr. RUSHI SANTHOSH SINGH THAKUR

Professor & HoD (EEE), MVR College of Engineering, Vijayawada, A.P.

Organized by: Department of Science & Humanities

Dr. Rushi Santhosh Singh Thakur

Ph.D. (PE) Sathyabama University

M.Tech. (PE) JNTU-H UNIVERSITY

B.Tech (EEE) ANDHRA UNIVERSITY

Completed Devops course to coop up with the present trend.

Have sound knowledge on NBA, NAAC, Autonomous Process & Administrative works.

Worked as Principal at Priyadarshini Institute of Technology & Management, Guntur since July, 2021 to till November, 2021.

• Worked as Professor & Head Department of EEE, & Autonomous coordinator at MVR College of Engineering and Technology (MVRCOE), Vijayawada since November, 2017 to June, 2021.

• Worked as Professor & NBA Member at Lakkireddy Balireddy College of Engineering, Vijayawada since February, 2017 to October, 2017.

PRINCIPAL
RISE KRISHNA SAI GANDHI
GROUP OF INSTITUTIONS
VALLURU:: ONGOLE.

Worked as software engineer at Satyam Computer Services Ltd. from 29th September, 2006till 29th September, 2008.

Academic Projects Published:

Design & Analysis of a converter for a residential microgrid distributed generation.

- Simulation of a SVPWM Controller for a three level voltage fed inverter motor drive.

- Smart Card based attendance system.

Patents Published:

Computer implemented system for analyzing human brain images using functional imaging data.

Papers published in International journals and conferences:

"Design & analysis of a novel fuzzy logic controller based inductive power transfersystem for THD, current compensation & power loss reduction"Dogo Rangsang Research Jounal, UGC Care Group-I Journal, ISSN:2347-7180, Vol-11, Issue-01-2021

- "An advanced FLC based bidirectional electric drive system fed with an electric vehicle" Juni Khyat, UGC Care Group-I Listed Journal, ISSN:2278-4632, Vol-11, Issue-01-2021

- "Modeling & Design of a Fuzzy based power compensation electric springs" Dogo Rangsang Research Jounal, UGC Care Group-I Journal, ISSN:2347-7180, Vol-11, Issue-01- 2021

- "A Novel dual thyristor based protection system for all faults in hybrid bridge modular multilevel converter based bipolar HVDC systems" Dogo Rangsang Research Jounal, UGC Care Group-I Journal, ISSN:2347-7180, Vol-11, Issue-01-2021

Achievements/workshop Attended

Attended a Two day National Level workshop on "Recent Trends in Power System Deregulation", at University College of Engineering, JNTU Kakinada.

- Attended a one day seminar on "Energy & Environmental Problems facing the thirdworld and the solutions", at V R Siddhartha Engineering College, Vijayawada.

- Attended a "National Level Seminar on Introduction to MATLAB", at Mysore, conductedby Math works.

- Attended a "Two day National level Workshop on Renewables", at Vignan University, Vadlamudi.

- Attended a Faculty Development Programme (FDP) at NIT – Calicut, Kozhikode on Microgrids and Distributed Generation for 15 days.

Workshop Schedule:

Day 1: Introduction to Research Methodology

Session 1: Welcome and Registration

Registration and distribution of workshop materials.

Welcome address by the organizing team.

Session 2: Inauguration and Keynote Address

Inauguration ceremony with a chief guest.

Keynote address on the importance of research methodology in engineering.

Session 3: Understanding Research Concepts

Introduction to research and its significance in engineering.

Basics of the scientific method and research process.

Session 4: Research Design

Types of research (qualitative, quantitative, mixed methods).

Formulating research questions and objectives.

Session 5: Literature Review

Importance of literature review.

How to conduct an effective literature review.

Session 6: Data Collection Methods

Surveys, experiments, interviews, and observations.

Ethical considerations in data collection.

Day 2: Practical Application of Research Methodology

Session 7: Data Analysis Techniques

Introduction to data analysis software (e.g., SPSS, MATLAB).

Hands-on practice with sample data.

Session 8: Research Ethics

DEPARTMENT OF SCIENCES & HUMANITIES

Discussing ethical issues in engineering research.

The role of Institutional Review Boards (IRBs).

Session 9: Writing Research Proposals

Structure and components of a research proposal.

Tips for writing a compelling proposal.

Session 10: Publication and Dissemination

Importance of publishing research.

Choosing the right journals and conferences.

Session 11: Grant Proposal Writing

How to write a successful research grant proposal.

Funding opportunities in engineering.

Session 12: Panel Discussion and Q&A

Invite experienced researchers and faculty for a panel discussion.

Allow participants to ask questions and seek advice.

Session 13: Certificate Distribution and Closing Remarks

Distribute certificates of participation.

Closing remarks and feedback collection.

Vote Of Thanks:

Ms.P.Sridevi beloved HOD of Department thanked every student for their active participation and interest in participating in the workshop and mentioned about the activities conducted in the college by the Department. She promised that department will continue its assistance in conducting these sorts of workshops and seminars in future.

She mentioned about the marvelous support given by the Principal Prof. Dr. K V. Subhrahmanyam to the department in conducting these workshops. She also thanked for the personal interest taken by him in encouraging the department in all aspects.

Closing Report:

As per the approved schedule of RISE Krishna sai Gandhi group of Institutions we have conducted a two-day work shop on "Research Methodology In Engineering." at Seminar Hall from 27-08-2021 to 28-08-2021 between 09.30 am to 4. 30 pm. The students of total 129 108 have participated in this programme. The workshop headed by Dr. Rushi Santhosh Singh Thakur,Professor,MVR College of Engineering and Technology, Vijayawada, AP, India.

We are expecting your support in future also, we would always be thankful to you.

Yours faithfully,

Coordinator

WORKSHOP HEAD - FEEDBACK

Academic Year : 2021-22

semester : I st Sem

DATE: 09-09-2021

Name of the speaker (s)	: G.V. Chalapathi Rao
Designation	: Assoc. Professor of ECE
Institution/University/Organization	: MVSR College of Engineering
Title of the Workshop	: Research methodology.
Date & Time	: 09-09-2021 and 10A.m
venue	: RISE Krishna sai gandhi group of institutions
Beneficiary	: II nd year, I st SEM
Comments Speaker(s)	: Students are excellent in perfomance. Need some extra information.
Signature	: G.V. chalapathi Rao.

Guest Address/Contact No

G.V. chalapathi Rao.
MVSR College, Hyderabad.
9276146073

Name of the Student who offered feedback (feedback enclosed)
1. VALLEPU ANUSHA
2. SAPPARAPU SHYAM
3. BOLLA MAMATHA
4. SODA DIVYA.

FACULTY IN-CHARGE

HEAD OF THE DEPARTMENT

Department of Electronics and Communication Engineering

Valluru,
Date:05-09-2021.

CIRCULAR

This is to inform II B.Tech students that a 1-day workshop on "RESEARCH METHODOLOGY" will be conducted on 09-09-2021 by Sri G.V. Chalapati Rao, Assoc.Professor, Department of Electronics & communication engineering, MVSR engineering college, Hyderabad.

Guest lectureon

"RESEARCH METHODOLOGY"

Resource person

G.V. Chalapati Rao, Assoc.Professor Department of

Electronics & communication engineering,

MVSR engineering college.Hyderabed

On

09th SEP 2021

The major event was conduct as Guest in RESEARCH METHODOLOGY in ECE Department on 09.09.2021. The program started at 09:00 A.M with inauguration. The Guest speakers for the session was G.V. Chalapathirao, Assoc. Professor, Department of Electronics and Communication Engineering from. MVSR engineering college, Hyderabad. The topic was "Research Methodology The target students for the session was II year ECE students.

Objectives of conducting workshop

- To make students learn and interact with renowned industry experts.

- Make Students to receive an unparallel education on the art of "ResearchMethodology with personal one on one attention.

- To make every student an expert in Research Methodologywhich would be veryuseful for developing their own Research projects

Overview about Workshop

The aim of this workshop is to make the students are going to gain basic knowledgein the field of Research for their projects handled in the B.Tech and upcoming studies. Research methods are very important to implements the projects their academics.

CLOSING REPORT

As per the approved schedule of RISE Krishna Sai Gandhi group of Institutions a 1-day workshop on "RESEARCH METHODOLOGY" was conducted on 09-09-2021 at RISE INDIA, from 10:00 am to 5:00 pm. 117 students of II ECE participated in the programme which was headed by Sri G.V. Chalapati Rao, Assoc.Professor, Department of Electronics & communication engineering, MVSR engineering college Hyderabad.

We are expecting your support and presence in the future too, we would be thankful on behalf of the Institution.

Thanking you sir,

Yours faithfully,

(K. NAGA HANUMACHARI)

OBJECTIVES OF CONDUCTING WORKSHOP

☐ To make students learn and interact with renowned industry experts.

☐ Make Students to receive an unparallel education on the art of **"J-Gate One Platform to Discover All Scholarly E- Journal Literature "** with personal one - one attention.

☐ To make every student an expert in **J-GATE WEBINAR ANALYSIS** which would be very useful for developing their own Research projects.

Overview about Workshop

The aim of this workshop is to make the students are going to gain basic knowledge in the field of Research for their project s handled in the B.Tech and upcoming studes.Research methods are very important to implements the projects their academics.

Technical Support:

The workshop was conducted in collaboration with Center for Electronics System Design(CESD) from Vijayawada. The company has a fast growth in varies techonologes in electronic filed along with the research projects designing. The company's director Mr. Finney Daniel accompanied with Seven Trainers attended the workshop for guiding the students in learning the technologies.

Department of CSE:

Department of CSE has taken the opportunity to conduct the workshop in RISE KRISHNA SAI GANDHI GROUP OF INSTITUTIONS. As the theme of the workshop is the core for the department, it's a nice opportunity for the students to learn the technology and to implement that practically.

Technical Report on Workshop:

The Technical team of Center for Electronics System Design (CESD) has described the entire designing process in a step by step procedure.

J-Gate One Platform to Discover All Scholarly E-Journal Literature

J-Gate, an electronic gateway to global e-journal literature; is the most efficient comprehensive platform to access research information from over 55 Million journal articles (with access to 10 Million Full Text articles) coming from 49,000+ journals covering multiple subject domains from all disciplines such as; Agriculture & biological Sciences, Arts & humanities, Basic Sciences, Biomedical Sciences, Engineering & Technology, Social & Management Sciences.

The platform is fronted by simple, intuitive, and easy-to-use interface, and gives users complete control over search filters. J-Gate exponentially increases journal usage through its list of features and its ease of use.

The Shodhganga@INFLIBNET is set-up using an open source digital repository software called DSpace developed by MIT (Massachusetts Institute of Technology) in partnership between Hewlett- Packard (HP). The DSpace uses internationally recognized protocols and interoperability standards. Shodhganga provides a platform for research scholars to deposit their Ph.D. theses and make it available to the entire scholarly community in open access. The repository has the ability to capture, index, store, disseminate and preserve ETDs (Electronic Theses and Dissertations) submitted by the researchers.

The Shodhganga@INFLIBNET is set-up using an open source digital repository software called DSpace developed by MIT (Massachusetts Institute of Technology) in partnership between Hewlett- Packard (HP). The DSpace uses internationally recognized protocols and interoperability standards. Shodhganga provides a platform for research scholars to deposit their Ph.D. theses and make it available to the entire scholarly community in open access. The repository has the ability to capture, index, store, disseminate and preserve ETDs (Electronic Theses and Dissertations) submitted by the researchers.

We look at different places where you can find (references to) papers that could be of your interest. Not all papers will eventually be equally important for your thesis. Depending on the article and its contents, you may simply browse the article for the main findings in less than20 minutes, or you may sit down with the article for a week, pulling apart all its calculations and equations. But of course, you can't know how important a reference is until you find it and have a first look at it.

Vote of Thanks

Prof. Mr P Isaac Paul , beloved HOD of CSE Department thanked every student for their active participation and interest in participating in the webinar and mentioned about the activities conducted in the college by the department. He promised that department will continue its assistance in conducting these sort of webinar and seminars in future.

He thanked the technical support organized by Mr. Rahul S, Assistant Manager, Training and Business Department, J- Gate, Bangalore.

He personally felt very happy for the response of the company and satisfied with the way they conducted the webinar.

He mentioned about the marvelous support given by the Principal Prof. Dr.K.V.Subrahmanyam to the department in conducting these webinar. He also thanked for the personal interest taken by him in encouraging the department in all aspects.

OBJECTIVES OF CONDUCTING WORKSHOP

☐ To make students learn and interact with renowned industry experts.

☐ Make Students to receive an unparallel education on the art of **"National Webinar on Research, Innovation and Ranking"** with personal one - one attention.

☐ To make every student an expert in **Innovation and Ranking** which would be very useful for developing their own Research projects.

Overview about Workshop

The aim of this workshop is to make the students are going to gain basic knowledge in the field of Research for their projects handled in the B.Tech and upcoming studes.Research methods are very important to implements the projects their academics.

Technical Support:

The workshop was conducted in collaboration with Center for Electronics System Design(CESD) from Vijayawada. The company has a fast growth in varies thechonologes in electronic filed along with the research projects designing. The company's director Mr. Finney Daniel accompanied with Seven Trainers attended the workshop for guiding the students in learning the technologies.

Department of CSE:

Department of CSE has taken the opportunity to conduct the workshop in RISE KRISHNA SAI GANDHI GROUP OF INSTITUTIONS. As the theme of the workshop is the core for the department, it's a nice opportunity for the students to learn the technology and to implement that practically.

Technical Report on Workshop:

The Technical team of Center for Electronics System Design (CESD) has described the entire designing process in a step by step procedure.

A "National Webinar on Research, Innovation, and Ranking" is likely an online seminar or conference organized at the national level, with a focus on topics related to research, innovation, and ranking in various fields such as education, science, technology, and business. These webinars are typically organized to bring together experts, researchers, academics, and professionals to discuss and share insights on the latest developments, trends, and best practices in these areas.

Here is a breakdown of what each of the three main components might entail:
1. Research: This could cover a wide range of topics related to academic and scientific research, including methodologies,
best practices, funding opportunities, and the presentation of research findings. It might also include discussions on interdisciplinary research and the importance of research in advancing knowledge and addressing societal challenges.
2. Innovation: This segment would likely explore innovation in various sectors, such as technology, healthcare, business, and education. Topics might include the process of innovation, fostering a culture of innovation, the role of startups and entrepreneurship, and the impact of innovation on economic growth and competitiveness.
3. Ranking: This refers to the ranking of institutions, universities, or businesses in various contexts. For instance, in the field of education, it could involve discussions about university rankings and how they affect the reputation and performance of institutions. In the business world, it could focus on company rankings in terms of market capitalization, revenue, or other
key performance indicators.

Vote of Thanks

Prof. Mr P Isaac Paul beloved HOD of CSE Department thanked every student for their active participation and interest in participating in the webinar and mentioned about the activities conducted in the college by the department. He promised that department will continue its assistance in conducting these sort of workshops and seminars in future.

He thanked the technical support organized by the Ministry of Education (MOE's). He personally felt very happy for the response of the company and satisfied with the way they conducted the workshop.

He mentioned about the marvelous support given by the Principal Prof. Dr. K.V. Subrahmanyam to the department in conducting these webinar. He also thanked for the personal interest taken by him in encouraging the department in all aspects.
