Arduino Certification Program Report

Program Dates: October 13, 2022, to October 15, 2022
Organized by: RISE Krishna Sai Gandhi Group of Institutions.
In association with: Naresh Technologies and Consultancy Services, Guntur

Executive Summary

The Arduino Certification Program, organized in collaboration with Naresh Technologies and Consultancy Services, took place from October 13th to October 15th, 2022. This report aims to provide a comprehensive overview of the program, its outcomes, and participant feedback.

Program Schedule

Start Date and Time: October 13, 2022, at 10:00 AM
End Date: October 15, 2022

Participants

A total of 54 individuals from diverse backgrounds participated in the program. Participants came with varying levels of experience in Arduino.

Page 2: Program Highlights

Curriculum

The program encompassed a comprehensive curriculum that included the following key topics:

Introduction to Arduino
Arduino Programming
Sensor Interfacing
IoT Applications
Project Development

Hands   on Activities

Participants engaged in hands   on activities, applying their knowledge to practical scenarios. Activities included building circuits, programming Arduino boards, and working on real   world projects.

Instructors

PRINCIPAL
RISE KRISHNA SAI GANDHI
GROUP OF INSTITUTIONS
VALLURU:: ONGOLE.

The program featured experienced instructors from RISE Krishna Sai Gandhi Group Of Institutions and Naresh Technologies, known for their expertise in Arduino. They guided participants through the learning process, ensuring a meaningful experience.

Projects

Participants had the opportunity to work on Arduino projects, fostering creativity and problem solving skills. The projects covered various applications, from home automation to environmental monitoring.

Page 3: Feedback and Recommendations

Feedback and Satisfaction

Feedback from participants was overwhelmingly positive:

95% of participants rated the program as "Good" or "Excellent."
90% of participants felt the program met or exceeded their expectations.
98% of participants were satisfied with the instructors' knowledge and teaching effectiveness.
92% of participants found the hands   on activities to be satisfactory.

Suggestions for Improvement

Constructive feedback for program improvement included:

The demand for more advanced topics in Arduino applications.
Interest in extending the program duration to delve deeper into certain subjects.

Recommendations

To enhance future programs, consider the following recommendations:

Offer advanced levels of Arduino training to cater to participants with prior knowledge.
Explore flexible program durations to accommodate varying learning needs.

Conclusion

The Arduino Certification Program, in collaboration with Naresh Technologies and Consultancy Services, successfully equipped participants with valuable skills and knowledge in Arduino and its applications. It demonstrated the potential for future collaborations and the importance of continuing education in emerging technologies.

BJECTIVES OF CONDUCTING WORKSHOP

To make students learn and interact with renowned industry experts.

☐ Make Students to receive an unparallel education on the art of "MASTER CLASS IN AZURE CLOUD" with personal one - one attention.

☐ To make every student an expert in MASTER CLASS IN AZURE CLOUD which would be very useful for developing their own Research projects.

Overview about Workshop

The aim of this workshop is to make the students are going to gain basic knowledge in the field of Research for their projects handled in the B.Tech and upcoming studies. Research methods are very important to implements the projects their academics.

Department of CSE:

Department of CSE has taken the opportunity to conduct the workshop in RISE KRISHNA SAI GANDHI GROUP OF INSTITUTIONS. As the theme of the workshop is the core for the department, it's a nice opportunity for the students to learn the technology and to implement that practically.

IMPORTANCE OF MICROSOFT AZURE

Microsoft Azure is a cloud computing services provided by internet giant Microsoft. It allows users to build, test, host or manage web applications and data. Microsoft has its own data center infrastructure across the world which provides over 600 kind of cloud services.

The direct and major competitor of Microsoft Azure is Amazon Web Services, commonly called as AWS. Apart from that it does compete with Google Cloud and Alibaba Cloud which are quite behind.

Microsoft Corporation's Intelligent Cloud segment contains Azure, the second largest cloud service provider globally. Through Microsoft Azure, the company delivers a consistent hybrid cloud experience, developer productivity, artificial intelligence (AI) capabilities, and security & compliance. Microsoft Cloud revenue, which includes revenue from Azure and other cloud services, Office 365 Commercial, the commercial portion of LinkedIn, and Dynamics 365, reached $23.4 billion for the latest quarter, an increase of 32% year-over-year. As such, on an annualized basis, Microsoft Cloud revenue currently stands at $93.6 billion. However, Microsoft does not explicitly disclose Azure revenues, meaning that Azure is only a subset of total Microsoft Cloud revenue.

MICROSOFT DATACENTERS

A data center is a facility that provides shared access to applications and data using a complex network, compute, and storage infrastructure. Industry standards exist to assist in designing, constructing, and maintaining data center facilities and infrastructures to ensure the data is both secure and highly available.

Over 200 physical Microsoft Azure data centers are located worldwide, which house computer servers, each fitted-out with independent power, cooling, and networking. The company connects this data center infrastructure with more than 175,000 miles of fiber lines across 140 countries.

Microsoft Azure Data Center Locations

Microsoft Azure has similar way of classifying the location as that to AWS. Mainly, it uses Geographies (mostly countries, continents as well), Regions (cities) and availability zones. In fact, almost all of the major cloud infrastructure providers these days follow this pattern to describe their data center locations.

Microsoft Azure has data center regions in following main geographies:

Geographies: since Microsoft has used both continents and countries as geographies, for your convenience, we have separated out each such geographies on the basis of continents in our world political map.

Microsoft Azure Geographies in Asia & Oceania:

REGIONS AND AVAILABILITY ZONES

Regions are mainly the cities that host one or more availability zones in the area. Availability zones are unique cluster of one or more data centers interconnected with same low-latency network, power source and cooling system.

Microsoft Azure presently has 60 regions and 116 availability zones in operation. These regions and availability zones are distributed throughout the United States, Azure Government (U.S.), Americas, Europe, Asia Pacific, as well as in the Middle East & Africa. Such "availability zones" are independent to other availability zones in the region or outside. They are tolerant to data center failure through redundancy and logical isolation of services.

Regions and Availability zones of Azure

Below are all the regions and locations of Microsoft Azure data centers in their respective geographies:

About the Program:

The main objective of this lecture is to explore popularity of Machine learning (ML), Deep learning (DL), and Artificial intelligence (AI) has sharply risen in recent years. Despite their spike in popularity, the inner workings of ML and DL algorithms are perceived as opaque, and their relationship to classical data analysis tools remains debated. It is often assumed that ML and DL excel primarily at making predictions. Recently, however, they have been increasingly used for classical analytical tasks traditionally covered by statistical models.

Inaugural Session:

The program was inaugurated in the morning at 19th Aug 2022 by hands of Mr.Madiboyina Chaitanya (Resource Person), Prof. K. V. SUBRAHMANYAM (Principal), Mr. S. V.RAVI KUMAR(HOD),Dr.S.V.V.N.CHANUKYA.PADIRA (Coordinator, Webinar).

In welcome speech, Hon. Principal Dr. K. V. SUBRAHMANYAM shared his views with the participants that if faculty& student get awareness on Deep learning attending such webinar programs, people knows the procedure "how to do hardware implementation of deep neural networks". He briefed the participants about the subject chosen for the webinar and highlighted the reasons and importance of the same.

In the inaugural speech, Mr. Chanukya Padira gave introduction to the webinar and about Deep learning Later, He handover the secession to the resource person Mr. Modiboyina Chaitanya, Research scholar.

Mr. Modiboyina Chaitanya Delivers the following Topics
- what is DNN ?
    1) Convolutional Neural Networks (From scratch)
    2) Convolutional operation
    3) weights
    4) Activations
    5) Pooling
- Why it is useful?
- When to use?
- Forward and Backward operation.
- Loss Functions
- Metrics
- FPGA Implementation

Objectives Of Conducting Workshop:

A Two-day workshop on project preparation and funding application in Engineering colleges can be a valuable opportunity to equip students and faculty with the skills and knowledge they need to succeed in their project endeavors.

To provide students and faculty with the skills and knowledge necessary for effective project preparation and successful funding application in engineering.

It's crucial to have knowledgeable and experienced facilitators or instructors to lead each session effectively. Encourage participants to bring their project ideas and provide them with templates and resources to start their project proposals during the workshop.

About the Program:

The main objective of this lecture is to explore the importance of antenna in future generations. Apart from the theoretical content about antenna one needs to know about the antenna designing process. There are number of designing tools available for the antenna. Mainly, preferred HFSS for the designing. The reason behind is the accuracy and user interface in the tool, And the next reason is most of the companies familiar with the HFSS due to the performance of the software.

Inaugural Session:

The program was inaugurated in the morning at 6th November 2022 by hands of Dr. P. SURENDRA KUMAR(Associate Professor) Prof. K. V. SUBRAHMANYAM(Principal), Mr. S. V. RAVI KUMAR(HOD), Dr. S. V. V. N.CHANUKYA.PADIRA(Coordinator,Webinar).

In welcome speech, Hon. Prinicipal Dr. K. V. SUBRAHMANYAM shared his views with the participants that if faculty & student get awareness on importance of antennas in future generations, then attending such lecture programs, students knows "the designing process of antennas". He briefed the participants about the subject chosen for the lecture and highlighted the reasons and importance of the same.

In the inaugural speech, Dr. P. Surendra Kumar gave introduction and importance of HFSS antenna.

Dr. P. SURENDRA KUMAR Delivers the following Topics

1. Introduction to Antennas and its architectures.
2. Importance of Antenna in 5G applications.
3. Discussion about Antenna parameters.
4. Antenna-related HFSS such as radiating boundaries.
5. Energy absorption from different angles.
6. Working on HFSS and the Importance of HFSS with other tools
7. Design structure of various antennas.

Intellectual property: copyright, Trademarks, and patents

Objectives:

1. To develop IPR Values mind set in the students
2. To plan for Patents or Journals with clarity
3. To present with confidence

Outcomes:

1. Students have changed attitude towards IPR Rights.
2. Students got overview on Patents, Journals etc.
3. Leadership skills and Innovative thinking improved

4. Students are preparing for filing their Patents.

Dear Sir,
Thank you for showing interest in conducting the awareness program on Intellectual Property Rights (IPR)
under National Intellectual Property Awareness Mission (NIPAM) in your college. As per our discussion,
this office agrees to conduct the said program in your institution through a webinar on 17th May 2022, 11
AM-12.30 PM.
Here I'm providing CISCO Webex link for the webinar, Speaker details, and the Title of the webinar. Kindly
share these details with participants. For your information, the link can be accessed directly from the browser
and can be accessed at least 15 minutes prior to the scheduled program. Please find the link below. Further, I
am also attaching a brochure for the programme and excel sheet for participants details (Name, Gender,
email ID). Kindly share the expected student details in the attached format for the purpose of issuing
certificates. Thank you.

Title of the Program:
A webinar on Intellectual Property Rights UnderNational Intellectual Property Awareness Mission (NIPAM)

About the Program:
On the occasion of the 75th anniversary of independence, the Government of India has begun a mission to
spread awareness on IPR among college and school students under the scheme – National Intellectual
Property Awareness Mission (NIPAM). Intellectual Property Rights (IPR) are exclusive rights granted in the
form of Patents, Designs, Trademarks, and Geographical Indications. This awareness program would expose
the students of your institution to various types of IPR which will ignite their intellectual thoughts and
motivate them to innovate and further transform their innovative ideas into Intellectual Property assets.

Resource Person:
Shri. Sai Santhosh Kumar,
Examiner of Patents & Designs,
Electrical Division,
Intellectual Property Office, Govt. of India.

About the Program:

The main objective of this lecture is to explore the importance of Electronic Circuit Design and Prototype Fabrication in future generations. Students can explore different aspect of Printed Circuit Board Design and fabrication. Students can learn various types of PCBs. Schematic Design. entry Rules for Schematic Entry, Component Layout methods Placement Rules, Routing Techniques for Single Sided Board. Post Processing of design and Fabrication documents. After completing this course students can design and fabricate their own PCB for their Project and can also work in PCB Designing and Fabrication area.

Inaugural Session:
