s a part of the community service project , today I meet few eople .

identified that only the head of the family is using the smart hone . And the remaining people were still using the key pad hone and I teach him the basic functionalities of phone and also ow to teach him how to make video calls , how to make online anking from his phone .

ISSUES SOLVED DURING THE PROJECT:

I explained the villagers , how nowadays technology rules the world .
We can do anything when we have network in our hands .

I explain the pros and cons of the technology ..

And I also explain anything in mobiles incase if they don't know .I taught few people how to send the messages through WhatsApp .

I had met the old people, and physically handicapped people of locality.

Explained them about the medical applications that can be operated using mobile
Helping them in using mobile medical applications had played a major role my project.

I explain the importance of the disha app to the girl's and women in the village .

And I taught in detail how to use the disha app .

I explain few people about the importance of the online transaction and explain them how to transfer the money .

For few uneducated people , I explained the importance of the studies and how it will the change someone's life ?
I tried my level best to change the perspective towards the education . And convince them to provide the proper education to their children .

DISHA App

Disha app is an sos service. Designed and developed by AP Police.
Disha is a step towards the safety and location by Andhra pradesh
govt..Disha services helps the women and citizens in emergency
situation.

VALLURU:: ONGOLE.

DAY-2

- On day-2 I started my field work in the town

- I have explained video call apps to old parents who are living far to their children.

- I suggested them to install google duo app .It works on android phones and tablets .

- And it is free of cost and should follow simple steps

- 1. we have to install the app in the phone.

- 2.open the app at the top search your contacts or number

- 3.tap the contact and it will connect the video call whom you want to connect

DAY-3

- Today I started my project work.Because of the pandemic the schools and colleges are closed .

- For that parents are worried about their children future.

- I suggested them to install byjus app in their mobiles. I also told them the importance about the app. I also said them It is having free trail in this app. I f you like this may get subscription in this app.

DAY-4

truecaller

- On day-4 I started my field work in the town .

- I have explained about **truecaller** app. It is very usefull app for now-a-days.

- Usually we are watching some unusal acts through mobile phones like spamming calls and harrasment calls etc..

- At this time we may trust truecaller app . It is very safe and information will not leaked to anyone.

- On the other hand it is very usefull to working womens .

DAY-5

- Behalf of day-5 I started my fieldwork .

- I explained **DISHA** app. Disha is a mobile application which women can use to alert nearest the police station in case of emergency.

- Full form of disha is district development coordinationand monitoringcommittee.

- It is started by AP chief minsister shri y.s. jagan mohan reddy.

DAY-6

- As a part of today survey I explained how to send **GMAIL** in amobile.

- **Gmail** is a free web-based e-mail servicethat provides users with a gigabyte of storage for messages.

- Main use of gmail is stored safely in the cloud

- G-mail is created by **paul buchheit.**

- Gmail is a free source.

DAY-7

- Behalf of today I have explained how to send **whatsapp** messages.
- By installing whatsapp in mobile we may text our dear ones or may see them in videocall in the whatsapp.
- Simple steps to follow
- 1. install whatsapp im your mobile
- 2. connect to our dear ones number you may chat them with your language
- 3. whatsapp also provides your required language.

DAY-8

- Behalf of today survey I started my project .
- Now-a-days coding is important for getting placed in a good mnc also
- My friends who completed intermediate my best suggestion to learn coding in mobile.
- In mobiles whitehat provides more coding tips and tricks for begginers to learn easily

DAY-9

- As a part of my sercice project today I explained the uses of **crypto** money.

- Crypto is a form of currency that exists digitally or virtually and uses crypography to secure transctions.

- On the note crypto apps also having some risks we should read terms and conditions before investing money.

DAY-10

- Behalf of my project last of the project should be different. So I decided to explain **where is my train app.**

- It is an unique app displays live status and update schedules. The app can function offline without needing internet or gps system .

- It may helps people getting their correct train in correct time without rushing.
