THE CONTENT OF MODULES FOR LANGUAGE AND COMMUNICATION SKILLS PROGRAMME

A.Y:2018-19

II- B.Tech

LANGUAGE SKILLS

When we learn our native language, first we listen, then we speak, then we read and finally we write. Listening, speaking, reading, and writing are the four language skills we need to develop for complete communication. Listening and reading are accessible input, i.e., the action of gaining language components in use. Speaking and writing are creative output, i.e., the action of constructing language as part of the progression of second language learning.

BODY LANGUAGE

Body language is the use of physical behavior, expressions, and mannerism to communicate nonverbally, often done instinctively rather than consciously. Whether you are aware of it or not, when you interact with others, you are continuously giving and receiving wordless signals. All people express their body language in one of four ways; a light and bouncy movement, a soft and fluid movement, a dynamic and determined movement, or a precise and bold movement. Positive body language in a classroom setting could motivate, inspire, and engage. It can not only give the confidence to students to speak but also reassure the students about what they are talking.

GROUP DISCUSSION

Having group discussions in the classroom is not only beneficial for students' social skills, but also their educational development and learning too. One way the faculty member can use group discussion to improve learning is to ask open-ended questions. Doing this will encourage critical thinking and help students think for themselves. Not only this, group dialogue can also be used to improve learning as it can encourage students to become more confident at speaking up and asking questions. This will help them improve their learning overall because it should make them more confident. Another way it improves learning is that group discussion invites students to be the main speakers, not just the teacher. This helps students as it can maintain their focus and concentration to hear another voice, which holds their attention.

IAM

The activity 'Just a minute or JAM' is a spontaneous speech where the speaker is made up to direct the idea on the given theme, within the duration of a minute. It is a mutual to see a student's undergoing edginess when asked to speak instantly. Jam is great brainstorming, congregation of ideas, sorting them by colour, establishing them on diverse edges, touching them composed, sketch the lines to connect important ideas, etc.,

SELF-AWARENESS

In philosophy, self-awareness is the experience of one's own personality or individuality. It is not to be disorganized with awareness in the sagacity of qualia. While realization is being aware of one's environment and body and lifestyle, self-awareness is the acknowledgement of that awareness. Self-awareness comprises of different aspects of the self-including traits, behaviours, and feelings. Fundamentally, it is a psychological state in which oneself becomes the emphasis of devotion. Self-awareness is one of the first components of the self-concept to appear. It offers students vision into who they are, why they respond as they do, and gives them a route for self-improvement. Self-awareness for students is crucial for their success.

CASE STUDY

Case Study has been an aspect of academic curriculum, which facilitates the students know about real life problems, based on various concepts. To make the students comprehend the problem clearly and let them solve the problem with their innovative ideas. The activity of case study is an integral part of professional education, which incorporates the skills like creativity, analytical skills, problem solving, decision making etc among the students. During the session, various case studies were gone through and relevant conclusions and solutions are explored from the students. The session went on fruitful

PRESENTATION SKILLS

A Presentation is a talk by an individual given to a group of people and it contains information about an idea, a subject or a product. It has become an important form of oral communication in spheres of education and work, and is closely linked to career and personal growth. Students should have this skill in the course of their everyday life. Students also should focus on their body language while they are participating in presentation skills.

STORY TELLING

Story is an act of expression of language, wherein the students can develop their cognitive skills, innovative thinking, memorization etc. Story telling is an activity of refreshment and enjoyment besides language enhancement. The session discussed the guidelines for Storytelling, narrative techniques and mode of expression, in addition to emphasis on body language, eye contact and facial expressions. The activity of Storytelling improves the confidence levels of the students, which enhances their Public speaking skills.

PUBLIC SPEAKING

The Session on Public speaking inculcated diversified communication skills among the students. The resource person has given inputs on Public speaking and made the students practice the same. In the world of competition, public speaking is a necessary skill to be acquired and practiced by the students, to create their image in Public. The activities like elocution, extempore seminar and group discussion were conducted during the program.

GAME BASED LEARNING

Game based learning is an activity wherein there is fun learning environment. Game based learning helps students solve problems through skills like comprehension, logical thinking, creativity etc. The benefits of game based learning include memory, attention, coordination, skill building etc. The participation of students in game based learning results in active learning rather than passive learning.

RESUME WRITING

Resume writing has been dealt with as a cornerstone of campus training and placement as it is the prerequisite for any professional student to grab an MNC placement. Resume writing is a skill of an individual to draft a document in which he provides authentic information about his educational qualifications, personal skill such as technical skills, strengths and weaknesses, achievements, details of participation in co-curricular and extracurricular activities, brief information about the project etc. Resume is usually accompanied by a customized cover letter. Resume for various jobs must be tailor cut, matching the skills required by the position.

INTERVIEW SKILLS

The aim of orientation of interview skills is to equip the students with the corporate ready skills; to make them grab MNC opportunities and to survive and excel in their work place. The program facilitates students to learn about grooming, formal attire, group behaviour, emotional balance, confidence, power of expression etc. the aspects that need to be aware of before attending interviews. The lecture deals with the prerequisites of aspirants for interview and types of interviews. The students are provided with an awareness that the interview is a formal meeting between the employer and the employee, to assess the fitness of the employee for the job.

EXTEMPORE LECTURE

Extempore lecture aims at making the students to speak on the topic given spontaneously and creatively. The requirements to be possessed by a student to deliver well in Extempore are previous knowledge gained through reading, analytical skills, creativity, and power of expression. The session includes inputs of the topic and various practice activities to build up and enhance the confidence levels of the students, thereby improving the stage of performance of the students.

ROLE PLAY

Role play is an activity wherein students assume a role and try to communicate with another student on the context. This activity facilitates the students to create ideas and express their ideas. The skills a student can gain by participating in role play are creativity, spontaneity, conversation ability and attentive listening. The consistent practice in role play makes them gain confidence in facing their day to day communication problems.

IT LIFE CYCLE & EMPLOYMENT OPPORTUNITIES

IT life cycle has become the component of instruction and discussion in the classroom, owing to its encompassing nature in the human life. As most of the jobs are with IT background and technology pervades the human life, it's one's moral responsibility to know the pros and cons of IT life cycle. The session dealt with the measures we have to take in habituating ourselves to IT life cycle and the immense impact of Information Technology on human life. The session on employment opportunities carried out an awareness on various career opportunities available for engineering professionals, i.e., in core field as well as software field; types of jobs offered by central and state governments. In addition, information about various social media platforms, online job portals etc are given. The session also witnessed discussions on the requirements of these jobs and how to achieve these required skills. Moreover, the students were provided with the information on placement consultancies, hiring companies, training agencies etc.
